Holistic Educational Support for
Sex Offenders in the EU

Objectives

The primary objectives of the project are to:

- Develop and reinforce stakeholders' networks at national, regional, and European level;
- Exchange good practices
- Support and reinforce the capacity of the experts working with sex offenders
- Create common methodologies for intervention
- Foster the development of social and civic competencies of sex-offenders
- Enhance the access, participation, and learning of the target groups.

The project will raise awareness on the importance of introducing holistic psycho-educational training and intervention programs regarding the successful support and management of sex offenders, in order to reintegrate them into society and reduce the chances of reoffending.

BACKGROUND

During the past years, the number of reported sexual offences has significantly increased. The overall aim of the Educate and sUpport project is to develop a holistic psychoeducational approach of the inmates-sex offenders, as well s, to strengthen and reinforce the capacity of experts working with sex offenders.
