## HOLISTIC EDUCATIONAL SUPPORT FOR SEX OFFENDERS IN THE EU

2021-1-CY01-KA220-ADU-000035385

### Educate and Support EXPLOITATION GUIDE

Developed by Cyprus Prisons Department

November 2023

# 1. Introduction

The Project Educate and Support (**Holistic Educational Support For Sex Offenders In The Eu**) aims to develop a holistic psychoeducational evaluation of the inmates – sex offenders and to reinforce the capacity of Experts working with them. The project’s goal is to reduce the likelihood of recidivism and promote the former inmates’ efficient re-integration to the society. Additionally, it will raise awareness on the importance of introducing holistic psycho-educational training and intervention programs regarding the successful support and management of sex offenders, in order to reintegrate them into society and reduce the chances of reoffending.

In this document, “sustainability” is understood as an approach taken by partners to support the project in the long-term perspective. This document focuses on sustainability in terms of planned use and exploitation of the project results, further communication channels, target groups and timeline. It is a plan of action for every project organization within the framework of the dissemination of the project in the period of 5 years after its end.

## 2. Sustainability plan for each organization

Each organization should complete the following table.

## Cyprus

No.	Planned exploitation activity (description)	Target Group	Channel	Impact level (European, national, regional, local)
1	Preservation of the training material for experts and its utilization at the Correctional Officers Academy for inclusion in the training programme of new and existing correctional officers	Correctional Officers	Face to Face	National
